

Technical Exhibition on EMC and RF/ Microwave Measurements & Instrumentation

ETH

Eidgenössische Technische Hochschule Zürich
Swiss Federal Institute of Technology Zurich

Celebrating 150 years ETH Zurich

EMC Zurich 2005
February 15-17
Zurich, Switzerland

The Technical Exhibition on EMC and RF/Microwave Measurements & Instrumentation will be the major accompanying event of the EMC Week 2005.

Other events include:

- **Top-ranked scientific EMC conference**
that is renowned for technical excellence and established, currently in its 16th biannual cycle
- **Industrial forum, workshops, tutorials and topical meetings**
where first-hand advice and guidance on industry-related topics are provided by internationally recognized experts
- **Paper sessions**
with a healthy mix of theoretical and practical papers, making for a true field-engineers' conference
- **Exhibitor papers**
We accept papers from the exhibitors. **Invite your customers to these presentations at no cost. This supports customer relationship and provides feedback on your applications.**
Papers should be focussed on technical applications. All papers will be reviewed by our technical program committee.
Please send papers not later than July 2, 2004.
- **Poster session in the exhibition space**
providing an ideal interactive forum for exhibitors to mingle with conference attendees
- **Best-paper competition**
Industry-sponsored prizes are welcome.
- **Anniversary session**
celebrating 150 years of ETH Zurich, the conference home institution
- **Conference banquet**

The 16th International Zurich Symposium on EMC is supported by the following institutions:

electrosuisse >>

Exhibition

The Technical Exhibition is a **must-attend for all major manufacturers and distributors of EMC-related equipment and tools, such as:**

- Measurement and EMC test systems
- Protecting devices and components
- RF/microwave instrumentation
- Electromagnetic analysis/synthesis software

In the Heart of Europe

**Technical Exhibition
on EMC and
RF/Microwave
Measurements &
Instrumentation**
EMC Zurich 2005
February 15-17
Zurich, Switzerland

Bridging Academia with Industry

The Technical Exhibition will be held in the main building of the Swiss Federal Institute of Technology (ETH) in downtown Zurich, Switzerland. This places the Exhibition directly into the centre of Swiss industry and commerce, thus offering you unique opportunities for new contacts. At the same time, the conveniences of a large city with excellent ground and air transportation infrastructure will be at your disposal.

As you may know, the previous symposia (1975-2003) were attended by **more than 700 participants in average and up to 70 exhibitors from 34 countries.**

The enclosed Call for Papers was mailed to 40,000 addresses in December 2003, and we already register a lively response on the part of prospective participants.

An advertisement announcing the forthcoming event has been published in technical magazines all over the world. The symposium will also be publicized in the local press and by local broadcasters.
