

Beer Tasting

Monday, September 24, 2007

It started in 1889 ... the brothers Eugen and Ludwig Thomas, both of them master brewers, who studied in famous Pilsen, started brewing the first pale Lager for the citizens of Munich. More than a hundred years have passed and the public inn and beer garden were restored according to the historical standard. The focus again is on shiny coppery brewing kettles and on home brewed beer specialities. Thus, the beer comes directly from the brewers tub into your glass. You will have a chance to visit a little in-house brewery in downtown Munich and enjoy the green beer.
